SINGLE AND DUAL motor options available

The Single motor and Dual motor actions both lift and tilt the recliner forward so getting in and out is the easiest thing imaginable. The full powerlift facility is designed to assist sufferers of arthritis, rheumatism, MS, poor circulation and many other mobility restrictions.

The smooth and easy Single motor action enables the footrest to be fully raised before the back starts reclining. It also allows the sleeping position to be reached (less reclined than on the Dual motor design) from a starting position 20cm from the wall.

The sophisticated Dual motor mechanism enables you to control the backrest and footrest independently to reach the exact position you want including a near-horizontal full sleeping position (needs 38cm gap from the wall).

Optional LUMBAR ADJUSTMENT available at extra cost – choose this additional feature to enhance your comfort even further. Using the two extra buttons on the handset, you can increase and reduce the level of lumbar (lower back) support to reach the most comfortable position for you.

There is the option of a larger "Royale" size on all Recliners. A smaller "Petite" size, with a shallower seat and lower seat height is available on matching 'Lift & Rise' recliners.

All recliner chairs and Lift and Rise chairs come with a five year guarantee on all actions, frames, motors, handsets and all other electrical parts.

Single-use Emergency Back-up fitted as standard and Multi-use Battery Back-up available at extra cost.

Supplied with castors for ease of movement Front castors lift away to ensure stability in raised positions. Glides now available as an alternative to castors for solid flooring.

The 'Lift & Rise' Recliner is available in Petite, Small, Standard and Royale sizes. They are designed with full powerlift facility to assist sufferers of arthritis, rheumatism, MS, poor circulation and many other mobility restrictions. With the advantage of two-motor control, you can adjust the backrest and footrest independently to reach any desired reclining position, including a near-horizontal full sleeping position. The smooth and easy single motor action enables the footrest to be fully raised before the back starts reclining. Maximum recommended weight 159 kg (25 stones).

Supplied with removable back to make the task of delivering the Recliner into your home so much easier.
