Romana TV Units

Romana is a modern dining and living-room furniture collection with soft curves and sophisticated craftsmanship that emphasises ercol's skill in working with solid timber.

Romana is made from pale oak and finished in a clear matt lacquer to both protect and show off the beauty of the oak furniture. The handles are cut out from the solid of the wood doors and drawer fronts and visually form part of the dynamic look of the cabinets. All drawers are made from solid dovetailed timber. Doors and drawers feature soft-close mechanisms.

These two TV units feature ercol's IR eye, enabling you to use your remote control for your satellite box and DVD player whilst they are hidden behind the closed wooden doors.
