

himolla Lupo Riser Recliner

Himolla Lupo Relax

Two Seat Tensions – Soft or Medium

The shell-shaped backrest of the Lupo relaxation chair gives the term comfort a new meaning.

The design is based on the anatomy of the body and thus creates a natural and comfortable seating feeling, with the relaxation function providing additional relaxation. The headrest can be easily adjusted manually or optionally electrically to ensure a comfortable position for reading or watching TV.

The Lupo Relax comfort chair can be rotated 360 degrees and has an integrated headrest and adjustable back, as well as the standing aid. The back and footrest can adjust separately, giving you the ultimate position to be comfortable in. The headrest also has the ability to tilt.

- 6 bases: 3 star feet and 3 types of saucers (metal, wood, combi, anthracite)
- Heart-Libra
- external battery possible
- optional with seat and back heating
- Heating or air chamber massage optional
