

ercol Ibstone Cabinet

Statement meets elegance with the ercol Ibstone cabinet. With a bold 'sunburst' design cut out and sculpted into the front of the cabinet, this gives a subtle three-dimensional effect. The handle is set in the centre of the cabinet, the middle gently hollowed for the disc handle to sit and add to the 'sunburst' look.

Each cabinet is unique with the natural wood grains that appear from the solid ash. This means that no two pieces are the same, giving you a sense of uniqueness. Ibstone is fully assembled, ready to take centre stage in your room of choice.

Available in all ash finishes.
