

## ercol Lugo Dining Chair

---

With mid-century inspiration and charm with a modern feel, the ercol Lugo dining chair takes influence from Nordic design. Functionality and simplicity is taken into careful consideration with slim, tapered legs and a comfortably curved back. The Lugo chairs are made from sustainable solid ash, each chair becoming a statement piece with your dining table.

With various finishes available as well as a vast collection of fabrics to upholster the seat, the perfect look for your room can be achieved.

Grown in Britain (GiB) are now making the ercol Lugo chair in Certified-British homegrown timber.
