

Loona

Elegant piped seams frame the contours of the elegant sofa and emphasise the successful, timeless design, which easily outlasts short-lived interior trends.

The high-quality materials and careful workmanship are designed for long and sustainable use, so that the sofa has the prospect of becoming a real favourite over time. The leg rest and backrest can be adjusted separately. Electric adjustment is conveniently carried out using the toggle switch on the side of the seat. Additional comfort is provided by the manually adjustable headrests with high backrest.

The special wall-free fitting allows the chair to be positioned close to the wall without restricting comfort and functions. The entire range is available in two different seat heights and is also available without the wall-free function under model number 4484. Complete the look by combining the designer sofa with the matching LOONA armchair 8984 from the EASYSWING range.
