

## Plymouth Bed Base

Vispring beds are hand made today with the same care and to the same standards of quality which were established in the time of our grandparents.

The Plymouth, a new firm-edge divan from Vispring, features robust solid wood top edges and an expertly integrated recessed spring unit for unparalleled cushioning and enhanced sleep stability. Its perfectly balanced geometry ensures seamless pairing with any mattress. Vispring carefully nest pocket springs in a solid timber frame, creating a responsive layer that works in harmony with the mattress above — it supports you perfectly to give the most comfortable sleep possible. Every divan is finished in the finest natural materials (like coir, cotton, horsehair and wool) and can be personalised with different fabrics and leg designs. 600 Springs, Softly needed and heavily needed British fleece wool. Only available with Black Caster Feet. Base available with or without drawers.

30 year guarantee.  
Made in the UK.

The Plymouth Divan Bases True Firm Edge design provides a structural, solid wood top edging around the perimeter of the divan for a firmer and supportive sleep experience.
